

9th World Congress of Perinatal Medicine

Dear colleagues,

August 2008

On behalf of the World Association of Perinatal Medicine, it gives me great honour to invite members of the international community worldwide and all healthcare partners to:

the 9th World Congress of Perinatal Medicine

which will be held in the ESTREL Hotel and Convention Center, Berlin, Germany

from Saturday, October 24 to Wednesday, October 28, 2009.

Although obstetrics and neonatology form the core of perinatal medicine, the perinatal picture is enriched by often inspiring contributions from a range of other medical specializations.

Therefore we are expecting more than 2,000 international experts from different areas of expertise, especially obstetrics and gynecology, neonatology, pediatrics, anesthesiology, perinatal pathology and pediatric surgery who will attend this high level scientific meeting.

The congress theme is

“Assume Responsibility for Our Future”,

around which a number of sub-themes will be grouped. Perinatal medicine has gone through an enormous development over the last 50 years. Some aspects are of current interest, for example maternal mortality worldwide, intrauterine programming, and prevention of materno-fetal infection with HIV.

Berlin, the exciting capital of Germany, bridging Western and Eastern Europe, with its constantly growing research districts and scientific institutions, is an ideal location for this outstanding congress.

Enclosed please find further information. If you have any queries please contact CTW GmbH.

I am looking forward to welcoming you in Berlin.

Yours sincerely,

Prof. Joachim W. Dudenhausen
Congress President

Congress President

Joachim W. Dudenhausen

Head of the Departments of Obstetrics
Charité – University Medical School
Berlin, Germany
